

MA-20SLT **Quick-Vent**[™] Flange For Newer-Style ¾ & 1-inch Meters

Quick-Vent[™] is a “bolt-in” replacement for the blind strainer screen flange on the meter casing.

Quick-Vent[™] incorporates a unique metering valve allowing for controllable bleed rates. No more loosening flange cap screws or fittings and sudden uncontrollable discharge.

Quick-Vent[™] is entirely made from Stainless Steel to give corrosion-free service for many years.

Quick-Vent[™] allows evacuated product to be routed to a remote location or into a tank.

Quick-Vent[™] is a U.L. Recognized Component for LP-GAS service, your assurance the product has been tested to a Standard of Safety.

Add it all up: Safety, Convenience, Efficiency....
